

RMS CONSULTING

DEPLOYMENT SERVICES

KEY DEPLOYMENT ACTIVITIES

**OVER 120-MAN YEARS EXPERIENCE
DEPLOYING RMS PRODUCTS ACROSS
MORE THAN 200 CLIENTS**

RMS Consulting provides fast deployment turnaround time, a cost-effective service and global support to deploy RMS software on premise.

Our Consultants work with clients to define the right solution to meet your needs and implement RMS solutions within your IT landscape.

**Solution Assessment
& Design**

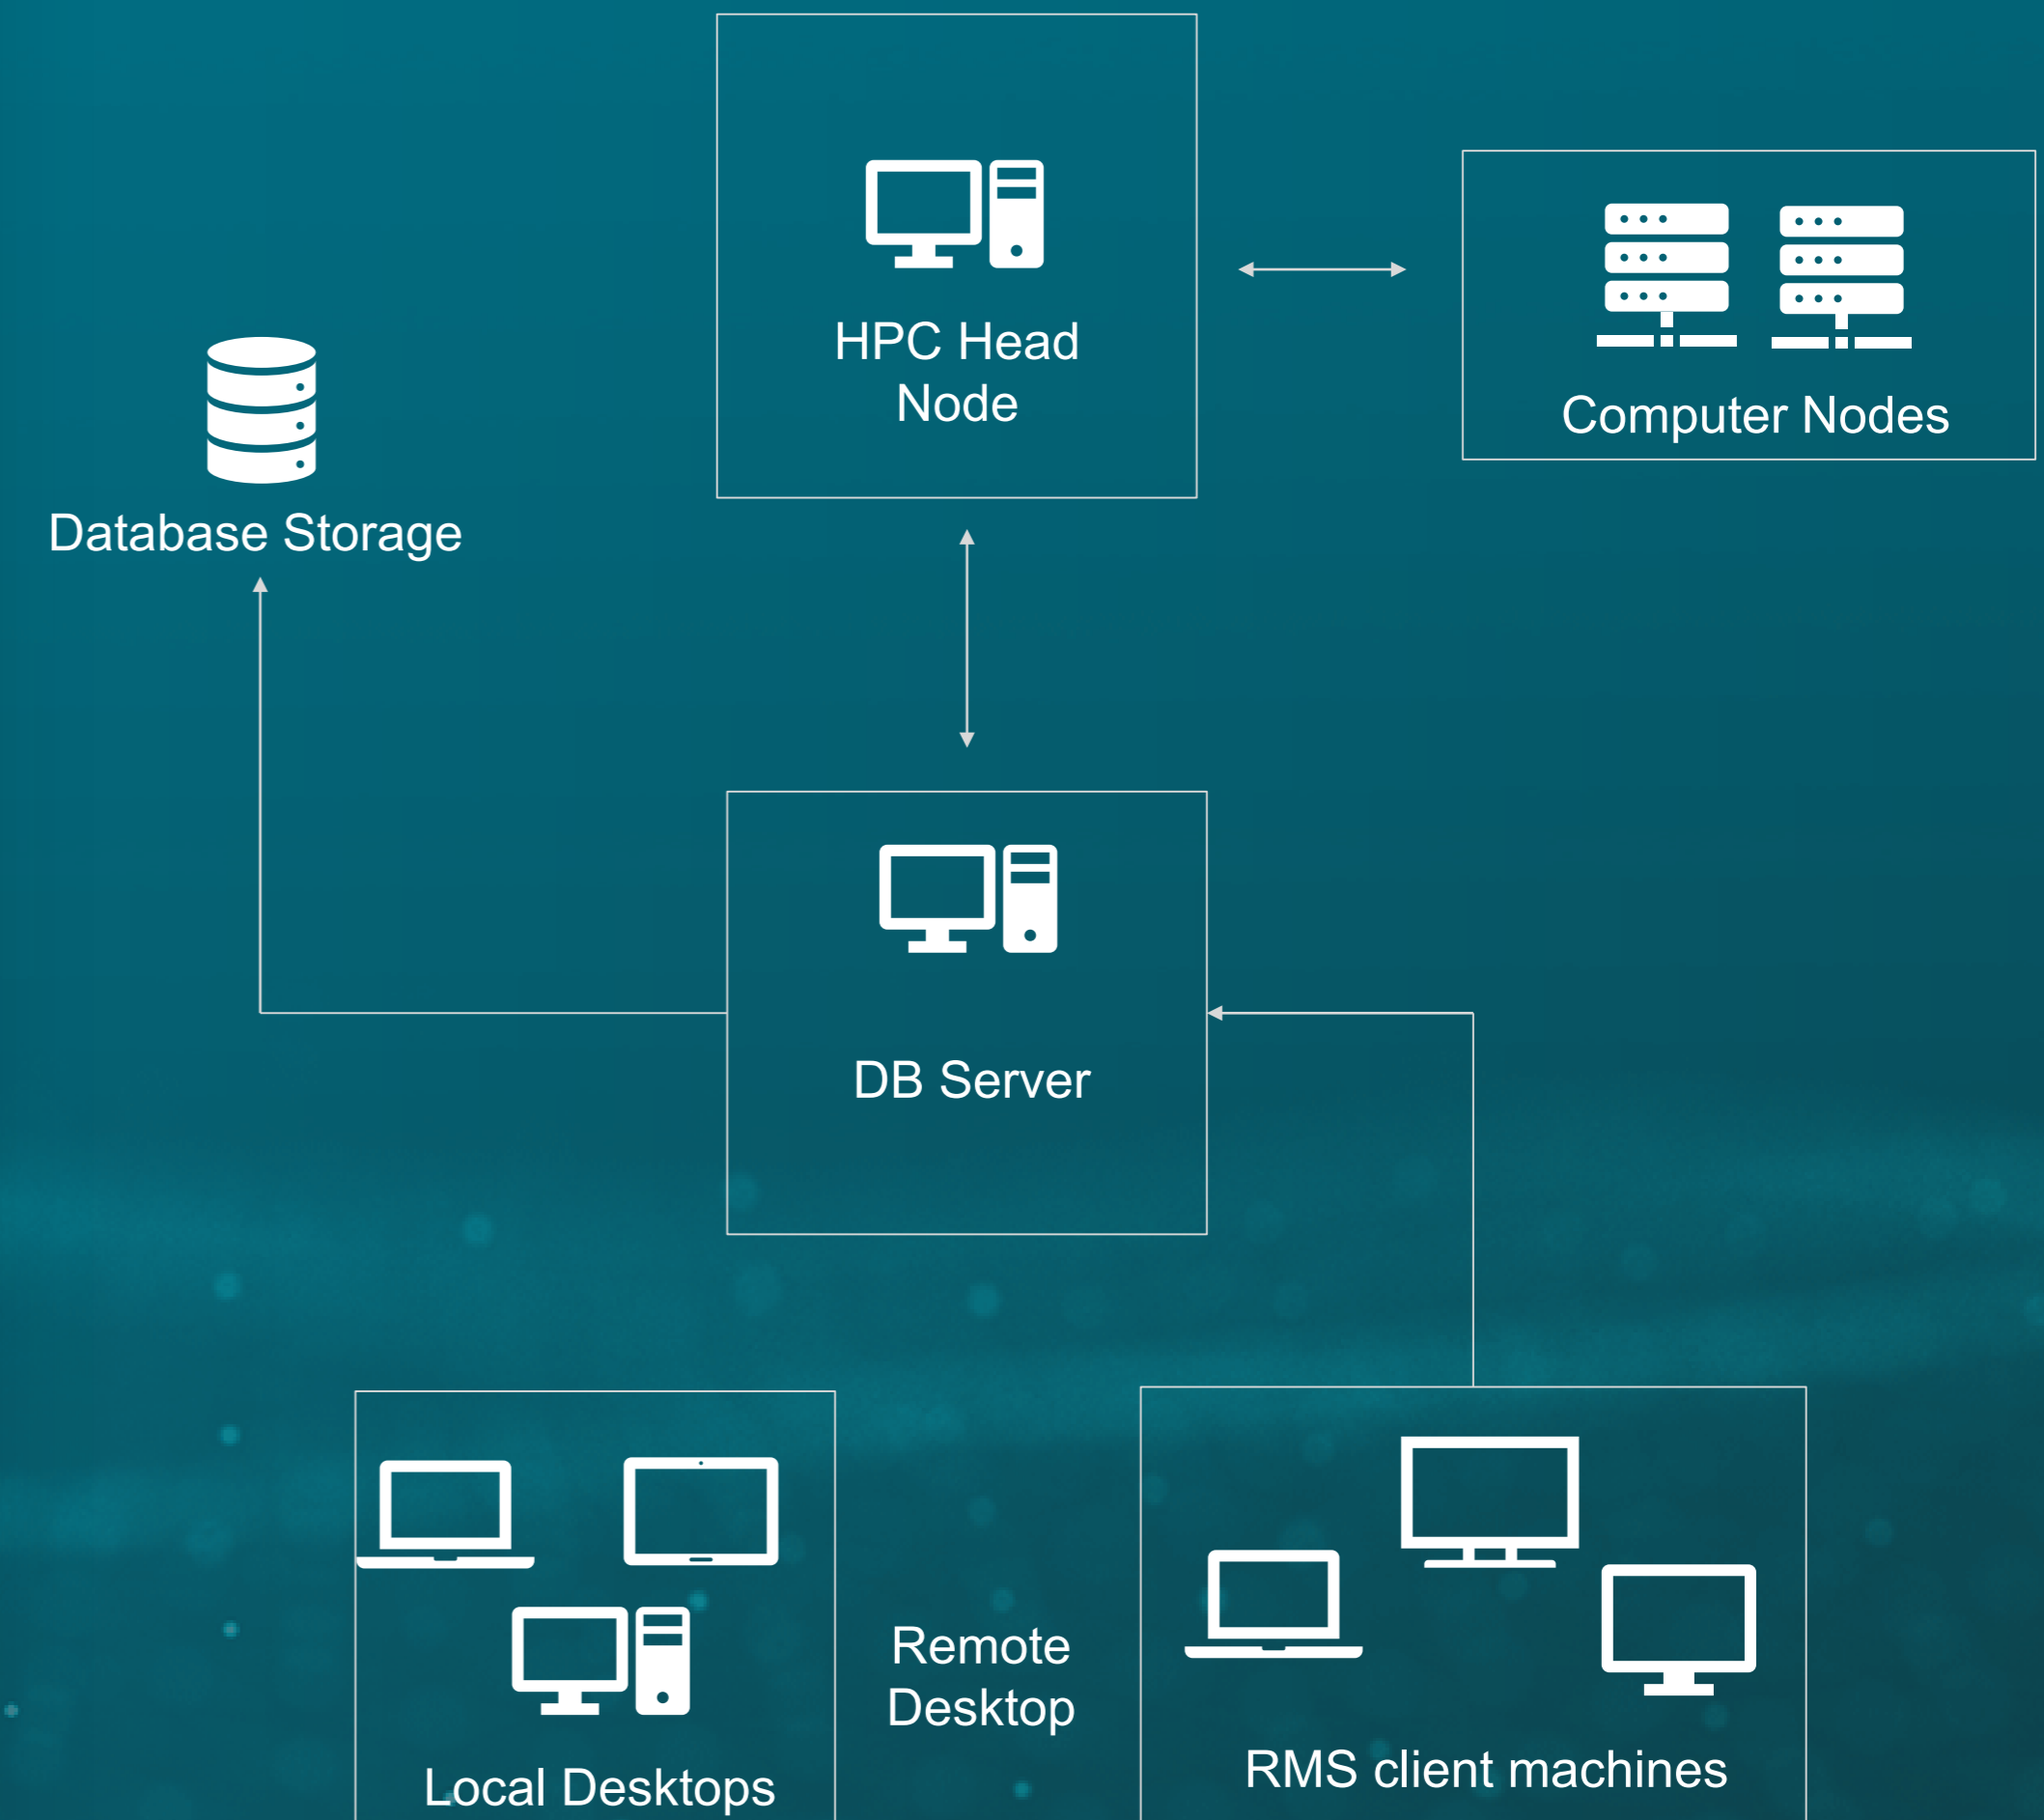

**System Deployment and
Validation**

SOLUTION ASSESSMENT & DESIGN

Our experienced consultants work to define the right solution to meet client business objectives:

- Analyze business requirements for solution
- Determine application & infrastructure sizing to meet business requirements
- Define system architecture
- Evaluate upstream and downstream interdependencies between systems

SYSTEM DEPLOYMENT AND VALIDATION

Following Solution Design, our Consultants work to ensure a successful deployment and handover for production usage. Services include:

- Installation and configuration of software
- IT security policy compliance
- System administration
 - Patches, upgrades as necessary
 - Issue resolution
 - Installation, server and model validation
 - Post implementation support

Liaison

- Process lead
- Coordinates deployment

End User

- Assign user IDs
- Best practices for product use

IT

- DBA
- Security
- Network admin
- Desktop support
